

OWN THE DEED. OWN THE INTELLIGENCE.

Complete technical specification for sovereign AI deployment

WHAT IS SOVEREIGN AI ARCHITECTURE?

Sovereign AI Architecture is a complete AI system — model, inference engine, memory, frontend, and governance — that runs on your infrastructure, answers to your rules, and cannot be throttled, censored, or shut down by a third party. No monthly platform fees. No kill switch. You own the iron.

THE 6-LAYER SOVEREIGN STACK

LAYER 01

MODEL

Llama 3.x · Mistral · Qwen2.5

Open-weight models you fully own. No subscription.

LAYER 02

INFERENCE

vLLM · Ollama

Self-hosted engine. OpenAI-compatible API.

LAYER 03

HARNESS

Open WebUI · LibreChat

Frontend, agents, and tool orchestration.

LAYER 04

KNOWLEDGE

Chroma · Qdrant

Private RAG. Local vector DB. Your data stays local.

LAYER 05

DATA

PostgreSQL · MinIO

All prompts and logs stored locally. You own every byte.

LAYER 06

GOVERNANCE

Custom middleware

Policy controls and immutable audit logs.

THREE CLONE ARCHETYPES

JELENA

FORENSIC ADVISOR

Gear shops, e-commerce, product reviewers. Deep domain knowledge + honest recommendations.

HARVEY

THE ENFORCER

High-ticket service providers, consultants. Filters noise, protects your time and perimeter.

ZAP

BRAND INTERFACE

Content creators, musicians, indie labels. Voice consistency across every platform.

SOVEREIGN CLONE TIERS — ONE-TIME INVESTMENT

LITE \$350 Single model, system prompt, WordPress embed, basic F	STANDARD \$650 Full model config, RAG corpus, knowledge capture, c	FULL STACK \$950 Complete 6-layer vLLM stack, inference, vector DB, full har	+ WEBSITE BUNDLE \$1,450 Full stack AI clone + complete sovereign website. Best value.
--	--	--	--

ADD-ONS

· Ongoing maintenance & model updates	\$75–\$150/mo
· Air-gapped / maximum isolation deployment	+\$200
· Multi-model setup (e.g. Jelena + Harvey)	+\$300
· White-label / agency licensing	Custom
